

Telamon Corporation — NORTH CAROLINA

Telamon Corporation opened its first Migrant Head Start Center in Henderson, North Carolina, in 1990. ECMHSP contracted with Telamon Corporation to serve fifty-nine children from July through November.

In April, 1993, Telamon acquired the contract at Saint Martin's Migrant Head Start located on the eastern shore in Dunn. Increased funding made it possible to serve eighty-two children, the majority under the age of three.

The most recent addition in North Carolina is Prospect Hill in the middle of the state. Telamon received a Startup/Expansion grant in October, 1993, to serve fifty children in Caswell County.

The special thing about being an ECMHSP delegate agency is that no matter how much insistence is placed on programs to continually improve performance, the support given through training, information, and a host of sensitive, responsible ECMHSP staff, never falters. Being exhorted to excellence, it is rewarding to be given the tools to achieve it.
